Orange is a citrus fruit obtained from the several orange tree species. Its peel is orange and can be smooth or rough.

Underneath has a white layer that surrounds the juicy pulp which is orange to reddish, divided into 8 - 10 segments, which may or may not have seeds.

Its flavor is sweet and slightly acidic, depending on the variety.

Because its high juice content, it is a heavy fruit in relation to size .

Grape is a fruit gathered from the vine. They come in clusters and are relatively small.

They are eaten fresh or used to make wine and vinegar.

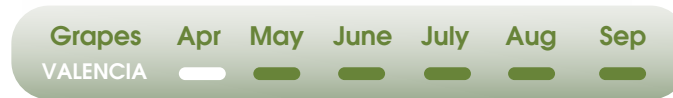

Sizes vary depending on the variety.

Its color is waxy yellow, white, green, pink, purple or almost black.

They stand out for its sweet flavor and are very juicy.

The cluster should be solid with firm skin grains, no injuries, and of uniform color.

The skin may be more or less thick wrapping the pulp, and it can contain seeds or not, depending on the variety .

Potatoes are underground tubers that grow on the roots of the potato plant, *Solanum tuberosum*. This plant is from the nightshade family and related to tomatoes and tobacco.

Native to South America, potatoes were brought to Europe in the 16th century and are now grown in countless varieties worldwide.

They're generally eaten boiled, baked, or fried and frequently served as a side dish or snack. Common potato-based foods and food products include french fries, potato chips, and potato flour.

Wadi el Nile offers all potatoes standards.

Wadi el Nile is in processing of all agricultural operations, passing through harvesting and packing until shipping.

Professional workforce driven by respect, partnership and innovation to gain customers' trust and become the most preferred exporter and supplier of vegetables in the global market
